A natural complement to the U.S. Botanic Garden, the National Garden highlights the amazing diversity of American plants, drawing inspiration from the environments of the Mid- Atlantic region. Conceived as an outdoor laboratory for gardening in harmony with natural ecosystems, the National Garden opened in the fall of 2006. Join Alex Torres and explore this undiscovered treasure of the U.S. Botanic Garden. **Please note:** This tour is held outdoors. We suggest bringing sunscreen, protective clothing and water. The tour is canceled if it rains or during times of extreme heat (heat index of 95 degrees or higher/Code Red weather alert).
